

I strongly urge you to not lessen the effects of the existing do not call list of the State of Indiana. These protections are very important to me and my family. Since the implementation of Indiana's Law, my time at home has been greatly improved. I no longer get the average of one phone call per day during my family's dinnertime. I was considering buying caller ID at \$8 a month in order to not have to answer these calls, but now I have saved time and money!

Sincerely,
Paul Klodzen
